

We Came From Space
Reasons in the Rhyme - EP

April 28th, 2020

Responding to planetary distress beacons, We Came From Space makes course adjustment from outer to inner space with new EP 'Reasons in the Rhyme'

PITTSBURGH, PA, PLANET EARTH - Since their trip began, the members of We Came From Space have always had a singular mission - to spread peace and harmony to all corners of the galaxy. Over the past year, the crew's been busy stocking up on inspiration and making preparations for their full-length follow-up to 2018's *While You Were Away*. In light of recent developments affecting friends from around the globe, the crew has decided to concentrate their efforts and make one, EP-sized delivery available immediately. The band hopes their first EP, *Reasons in the Rhyme*, will provide some small bit of light and encouragement for their friends as work continues toward completing the rest of the album.

Inspired by the enthusiastic reception of *While You Were Away*, guitarist/vocalist Dave Buzard, drummer Tim Malone, bassist/vocalist Dave Hawk, and keyboardist/vocalist Bill Hubauer strike again with their unique blend of Progressive and Album Oriented Rock. There is no denying the band's shared 1970s influences, but these life-long music fans continue to evolve as they combine 40 years of influences in new and interesting ways.

See <https://www.wecamefromspace.net/reasonsstream> for EP availability.
